## ABOUT

---

Final-year IoT student deeply passionate about Software Development

## ACADEMIC PROJECTS

---

### HMKSOCIALHUB

**MARCH 2023 - APRIL 2023**

HMKSOCIALHUB is a Django-based social networking website allowing user registration, profile management, and interactions such as following, searching, and liking posts. User profiles require essential information like a valid username, email, profile picture, bio, and location. The platform also features admin controls for CRUD operations and user profile management, with data storage handled by PostgreSQL and Cloudinary.
